

EZRELA FIDELYNN SURYA WIBISANA

Computer Science Undergraduate

Bandung, Indonesia | Phone: +6282129333996 | Email: ezre252@gmail.com | Portfolio: <https://portofolio-ezrela.vercel.app/> | LinkedIn: [linkedin.com/in/ezrelafidelynn/](https://www.linkedin.com/in/ezrelafidelynn/)

SUMMARY

Computer Science undergraduate at BINUS University with experience in backend and full-stack web development using Express.js, Node.js, React, and Vue.js, TailwindCSS, Git, Laravel, PHP. Contributed to improving system performance and functionality, including features that increased efficiency by up to 30%. I'm also comfortable working in diverse and international teams, with strong communication skills. Also experienced in leadership through my role as President of HIMTI Bandung, managing teams and supporting collaborative projects. Focused on continuous learning and building reliable, user-centered applications.

EDUCATION

BINUS University (2023 - present)
Bachelor of Computer Science - GPA : 3.89

EXPERIENCE

Joy Leap Studio – Krian, Indonesia

Web Developer (February 2025 – present)

- Redesigned and engineered the company's official website using a modern full-stack architecture (PHP, Blade, MySQL, and React), significantly enhancing runtime performance, system scalability, and overall user experience.
- Collaborated in agile peer code reviews to uphold rigorous code quality standards, optimize implementation logic, and promote team-wide knowledge sharing.
- Spearheaded the frontend development for the upcoming "Joy Asset" marketplace platform, leveraging React.js and Tailwind CSS to build a responsive, high-performance user interface.

GreyDx.AI – Singapore

Back-End Engineer Intern (August 2025 – November 2025)

- Developed and implemented invoice payment features, contributing to a measurable 30% improvement in overall system functionality and operational efficiency.
- Leveraged PostgreSQL, Laravel Artisan (PHP Artisan), Express.js and Next.js to develop and maintain scalable, performant web features across the application stack.
- Demonstrated strong adaptability by quickly mastering and implementing a diverse tech stack including both PHP and Node.js frameworks in a fast-paced startup environment.
- Redesigned the 404 error page with a more immersive 3D interface to enhance user engagement and navigation experience.

ORGANIZATIONAL EXPERIENCE

HIMTI BINUS University – Bandung, Indonesia

President of HIMTI Bandung 2025/2026 (March 2025 – present)

- Represented the organization in meetings with various internal and external stakeholders, ensuring smooth coordination, partnership discussions, and strategic alignment.
- Oversaw a community of 40+ active members, cultivating an environment that encouraged clear communication, cross-team collaboration, and growth-oriented leadership.
- Managed regular organizational operations and events, sustaining productivity and enthusiasm under tight deadlines and challenging conditions.

SKILLS

- Front End: Next.js, Reactjs, Vue.js, TailwindCSS, DaisyUI
- Back End: Git, Express.js, MySQL, PostgreSQL, PHP, Laravel, MongoDB
- Leadership
- Teamwork
